Research Currently in Progress

"Beyond Appearances series - mixed media" (On-Going).

This is a series of mixed media drawings on Arches Cover, 17 x 12 inches, that explore the organic abstraction and landscape and the patterns found in both the macro and micro views of the natural world. Twelve works from this series have been widely exhibited. My plan is to extend this series this year by another twelve. Many from this series have been purchased by institutions and private collectors. After seeing the success of the Outbound Looking Back exhibition, I plan to use stills from the video I created to generate new mixed media drawings under the Beyond Appearances label.

"Invented Sample series - monotype prints" (On-Going).

Created a series of monotype prints called "Invented Samples" that will make their first appearance at a solo exhibition in Columbia Missouri at the Sidney Larsen Gallery on the campus of Columbia College.

"Maps - mixed media" (On-Going).

Mixed media drawings on illustration board composed of 12 - 10 inch squares. These works are in progress and will be on display at the faculty exhibition at the Washington Pavilion.

"Sailing to Byzantium" (On-Going).

This is a series of monotype prints exploring repetition, pattern and color through automatic drawing with various inks and soft pastel. The work's title comes from a poem by William Butler Yeats. I respond to imagery, pattern, cadence, and repetition in poetry to arrive at responsive decisions within my abstract images. I recently showed one of these works at a juried exhibition at Arkansas State University.

"Scribbled Maps - graphite on paper" (On-Going).

Graphite drawings on large sheets of Rives BFK. These works were included in my exhibition at Columbia College during the fall of 2021.

"Spectrum - audio recording" (On-Going).

An audio recording in the form of an album. Currently, I am recording music played on guitar and the use of a midi controller to explore virtual instruments. The theme of the recordings are inspired by and revolve around the visible colors of the natural world. The album title is Spectrum.

"Waterfalls - audio/video" (On-Going).

Waterfalls is a series of slow-motion videos of water fountains from public art in various cities. The soundtracks for these videos are written, performed and recorded by me.
